Green Fleet Trucking Manager

**Purpose:** Ensure effective Fleet management in conjunction with Trucking department staff. Manage and coordinate fleet operations and drivers to meet schedules and generate income ensuring the highest levels of safety, customer service and environmental sustainability.

**Status:** Reports to Trucking Director. Collaborates and coordinates with Fleet Manager, providing day-to-day direction to all VV drivers. Assist Fleet Manager to direct maintenance and repair team as needed. Works closely with Warehouse, IC, Purchasing, Sales and Finance departments.

**Responsibilities:**

**Managing the Workforce**

1. Achieve Trucking operational objectives by identifying and maintaining appropriate staffing levels; hiring, training, assigning, scheduling, coaching, counseling, and taking corrective measures with drivers and other Trucking staff; communicating job expectations; planning, monitoring, and reviewing job contributions; participate in reviewing staff compensation.

2. In conjunction with Trucking Director, ensure appropriate training programs in place to support operational objectives and compliance with applicable regulations. Work closely with Training Manager to create, update and deploy training initiatives.

3. In conjunction with Trucking Director, maintain effective Trucking operations by designing, developing and implementing operational policies and procedures with appropriate controls and following up on work results.

**Managing the Workflow**

**Routing**

1. Monitor efficiency and timing of routes and propose changes to meet customer requested delivery times, minimize overtime and ensure compliance with HOS regulations (where applicable).

2. Ensure allocations support efficient delivery.
Dispatch
1. Proactively maintain contact with drivers on the road providing direction for pick-ups and deliveries, anticipating driver progress, evaluating impact to planned schedule and potential service interruptions.
2. Manage daily backhaul plan for efficiency and best use of trucking resources. Facilitate as needed between Purchasing and Trucking.
3. Dispatch in compliance with Department of Transportation (DOT) rules and regulations, ensuring compliance with HOS regulations.
4. Anticipate, troubleshoot/problem-solve situations that could impact on-time delivery or pick-up. Develop and implement contingency plans.
5. Minimize business disruption internally and externally by accurately communicating status to relevant stakeholders.
6. Review and coordinate all delivery departures of local drivers to ensure on-time delivery and efficient use of resources.
7. Work with common carriers to supplement VV hauling needs.

Breakdown/Accident Management
1. Partner with Fleet Manager to troubleshoot and resolve breakdowns.
2. Adhere to VV accident management process.

Freight
1. Contribute to building a profitable freight business by identifying potential opportunities, following up on inquiries and leads appropriately.
2. Implement freight policies and procedures and, in conjunction with Trucking Director and Fleet Manager, review freight rates to ensure profitability.
3. In conjunction with Director and Allocator integrate third party freighting with VV routing.

Compliance
1. Ensure compliance with all Department of Transportation rules and regulations.
2. In conjunction with Fleet Manager, oversee procedures to ensure all driver and equipment records (i.e. medical cards, pull records, HOS logs, SFO Airport Security, IFTA/Fuel Tax Reporting, etc.) are maintained and updated as required.
3. Ensure that trucking operations comply with federal, state and local organic handling requirements and food safety regulations by understanding existing and new legislation, enforcing adherence to requirements.

Fleet and Equipment
1. Support safe fleet operations by staying informed of the status of all rolling and stationary stock, ensuring problems are addressed in a timely manner.
2. Participate in fleet renewal planning (see Strategic Planning).
Safety
1. In conjunction with Trucking Director, develop and oversee safety procedures to ensure compliance with FSMA, GAP/GHP, CA DOT, FMCSA and OSHA standards.
2. Ensure that all Trucking staff is trained and complies with safe use of equipment as well as food safety and general safety best practices.
3. Assess the effectiveness of VV’s driver safety training and implement strategies for continuous improvement.

Strategic Planning
1. Participate in process improvement and systems analysis to identify problems and design solutions needed to improve the efficiency and effectiveness of the Trucking department.
2. Keep up to date on transportation industry information, trends and regulatory changes to assess implications for VV Trucking operations.
3. Participate in annual assessment of fleet to update VV’s 5-year Fleet Plan.

Professional Development
1. Keep abreast of professional and technical knowledge such as shipping/routing systems, HOS regulations, and equipment technologies by participating in educational; reading professional publications; participating in professional organizations and attending conferences.

Staff Development
1. Motivate, mentor, coach, and counsel Trucking staff to create an engaged, highly functional workforce focused on customer service.
2. Assess training needs of Trucking staff and arrange for or provide appropriate instruction, certification and/or licensing.
3. Conduct driver meetings to inform drivers on policies and procedures, relay general company information or address specific topics, such as new FMCS regulations.

Essential Requirements:
1. Ability to work nights and weekends – “on call”
2. Directing or leading others in accomplishing work activities
3. Making decisions that impact co-workers, customers and the company
4. Making decisions that affect the financial resources and the image and reputation of the company
5. Determining tasks, priorities, and goals
6. Being exact or highly accurate
