

Cocktail Grapefruit

ORGANIC

- Perfect for juicing; seeded
- Exceptionally fragrant & sweet; hybrid of Mandarin & Pomelo
- Sweeter than a regular grapefruit; has enough vitamin C for a full day!

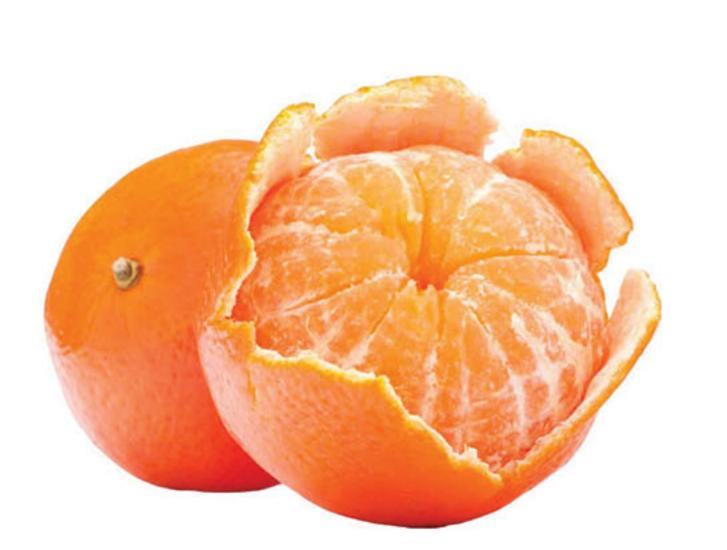

Vegetable

Daisy Tangerine

ORGANIC

- Bold full-bodied sweet flavor & quite juicy!
- Seeded, very pretty fruit; easy to peel
- Hybrid of Fortune mandarin and Fremont mandarin

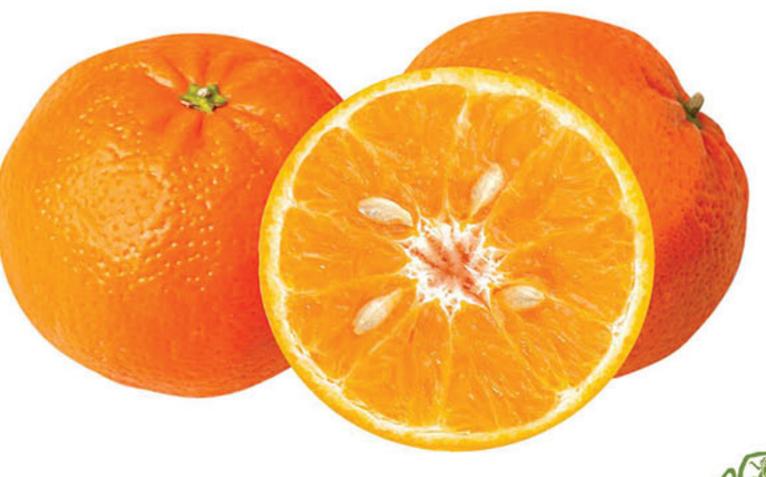

Dancy Tangerine

ORGANIC

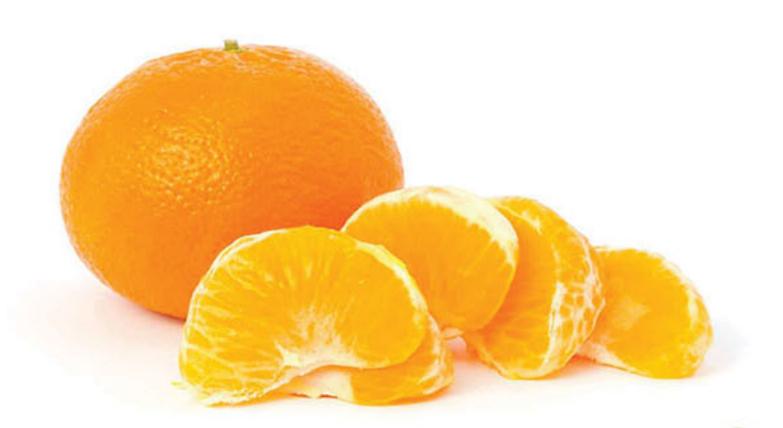

- Sweet & tart flavor with hints of spice
- Easy to peel; contains seeds
- High in antioxidants, potassium, vitamins A & C
- One of the oldest known tangerines; from Florida

Fairchild Tangerine

ORGANIC

- Great for juicing! Low acidity; rich classic tangerine flavor
- Seeded with thin pebbly skin
- Cross between Clementine and Orlando tangelo

Honey Tangerine

ORGANIC

- Super sweet flavor with hints of honey & spice
- Easy to peel; has some seeds
- Great for juicing, eating fresh, or as orange substitute in recipes
- Popular late-season variety; also known as Murcott

Minneola Tangelo

ORGANIC

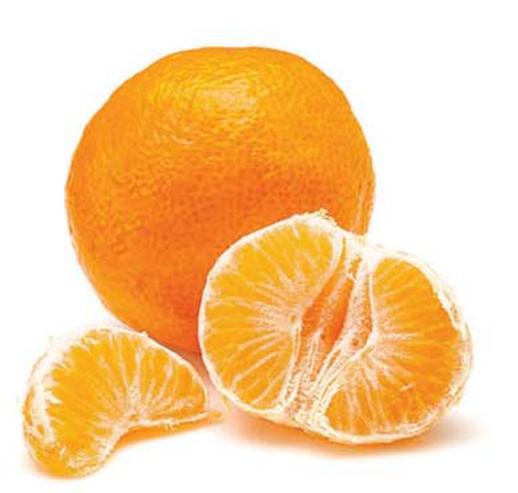

- Easy to peel; almost seedless
- Tangerine & grapefruit hybrid; dense texture
- Balanced sweet-tart flavor; juicy & high in vitamin A, C & fiber
- Also called Honeybell due to bell shape

Orlando Tangelo

ORGANIC

- Wonderful sweet-tart flavor; super juicy
- Hybrid of Duncan grapefruit
 & Dancy mandarin
- Easy to peel; very few seeds
- Flat-bottom, no knob on stem-end

Rio Red Grapefruit ORGANIC

- Most popular grapefruit
- Sweet-tart flavor, seedless; super juicy, dark pink flesh
- One grapefruit has enough vitamin C for a full day!
- Named for where it was bred, the Rio Grande Valley in Texas

Veritable Vegetable

Royal Mandarin

ORGANIC

- Juicy & acidic with hints of lemon; sweet and strong orange flavor
- Also known as Temple Orange; ancestor to many citrus varieties
- High in vitamin C & antioxidants
- Easy to peel, with some seeds; pebbly skin

Ruby Grapefruit

ORGANIC

- Sweet & juicy with hint of tang
- Easy to peel; few seeds
- High in antioxidants, fiber, vitamins A & C
- Originally from Barbados, in the Carribean
